

Ecoblue Tourism

Start a business in blue and ecological tourism

Ecoblue Tourism mobile app

The second intellectual output of the Ecoblue Tourism project is the creation of a mobile app. This app will be compatible with both android and iOS systems and can be downloaded on mobiles and tablets alike. The content of the app will be about entrepreneurship, applying the ECVET methodology within the EntreComp framework.

The [University of Patras](#) (Greece) is developing the code of the app, whilst [Dorea Educational Institute](#) (Cyprus) developed the design.

In total, 7 modules will be covered. These are:

1. Communication and Interpersonal Skills
2. Entrepreneurship and Business Management Skills
3. Ecology and Sustainability in Tourism
4. Tourism and Technology
5. Promote Local Tourism
6. Activating the Tourism sector in times of COVID-19 and Security
7. Training Guide on Business Plans in Blue Ecotourism

In April, we will be recruiting an initial testing team. If you are interested, please send us an email or message us on our Facebook page.

The consortium meets online

Unfortunately, due to the Covid-19 pandemic, the consortium could not hold meetings face-to-face, however, they made use of the advantages of technology and held the meetings online.

The partners hold a virtual meeting every month, whereby they give each other updates regarding the translation of the learning modules and the development of the app.
